PROFESSIONAL SUMMARY

Full-Stack Web Developer (Laravel, PHP, React, TypeScript) with a background in Systems administration and networking, experienced with Linux environments, Windows Server roles and CCNA fundamentals, focused on building secure, functional, and well-structured software.

TECHNICAL SKILLS

- **Backend: PHP, Laravel, MySQL, RESTful APIs, MVC, Repository Pattern**
- **Frontend: JavaScript (ES6, OOP, DOM, BOM), React.js, TypeScript, Inertia.js, HTML5, CSS3**
- **Programming: C# .NET (Windows Forms, SQL Server SSMS) Fundamentals**
- **Systems & Networking: CCNA (Routing & Switching), Windows Server (AD DS, DNS, IIS), Linux (Debian, Ubuntu), VMware, Cisco Packet Tracer**
- **Desktop & Tools: Git, GitHub, AI-assisted development tools**

PERSONAL PROJECTS

Healthcare Management System (Laravel 12, React.js, TypeScript, Inertia.js)

Multi-dashboard platform with real-time notifications and automated clinical workflows.

School Management System (Laravel 12)

Academic and finance platform with multi-language support and a complex student hierarchy modeled with polymorphic relationships.

Invoicing & Billing System (Laravel 12)

Automated invoicing lifecycle with PDF printing, Spatie-based role and permission management, and AJAX-based data handling.

Custom eCommerce CMS (Pure PHP)

Secure MVC framework built from scratch with a regex-based router, Repository pattern, and RESTful API.

Moderation Management System (Procedural PHP, MySQL, PDO)

Multi-level approval workflow for members and products, with comment moderation logic.

3-Tier Accounting Application (C#, .NET, SQL Server)

Desktop application covering full financial cycles using 3-Tier architecture, SQL stored procedures, and Crystal Reports.

Windows XP OS Simulator (Vanilla JavaScript)

Host environment for modular JavaScript apps with a functional desktop, built with OOP, DOM, and BOM.

Responsive Frontend Templates (HTML5, CSS3, jQuery)

Series of modern business and agency templates with clean UI.

Network Infrastructure Labs (Cisco)

Secure network designs using OSPF and EIGRP routing, VLAN segmentation, ACLs, and NAT/PAT.

EDUCATION

Technical Institute of Computer Science – Syrian Virtual University **Expected Graduation: December 2026**

CERTIFICATION & TRAINING

- **A+: Computer maintenance, OS installation, troubleshooting**
- **Financial accounting: with accounting software**
- **Full-Stack Developer: Web Design & Web development**
- **Diploma in Programming & Algorithms: C++, C#, Java**
- **Diploma in Systems administration: CCNA & MCSA**
- **Security+: Training**

LANGUAGES

- **English: Good, Arabic: Native**
